13. Your vision for the University.

Universities are known for their academic excellence like research and for that there are huge need for references such as journals/research papers and other sources from publication as well sage, springer etc. During our time some of the journals excess was there. But, right now I don't think so.

14. Your contribution to the University.

15. Any other suggestions/comments:

University administration must know one thing that, It is an educational institution not a political arena and ticket counter for different routes (different department). So, it must be under a single roof. That is the core identity of an university.

(c) Guest Lectures : **Very Little**

(d) Special Training Classes for bridging Industry/Academic gap :  
**Some Extent**

**IV. Please comment on the following (Point No. 10 to 15)**

10. Relevance of curriculum in your Job:

I completed PhD programme at CUHP, and I am in academics. The teaching and learning at CUHP are actually supporting me enough. The continuous support from faculty members helps in many ways. The learnings during coursework are helpful in many of the courses I am teaching in CHRIST (Deemed to be University).

11. Need any change in curriculum and syllabi:

For the PhD program, I believe the curriculum is designed well and can be updated as per requirements. However, I think the teaching assistantship should be appropriately followed, and scholars should be formally involved in teaching assistantship till they complete the residential period. One semester of a teaching assistantship is not enough. The scholars should also be given interdisciplinary exposure, and they should also assist professors in another department for at least one course or maybe for a few hours.

12. Improvements in teaching and learning Process:

There should be more interactions with guest faculties. Some of the international professors can be engaged in lectures, workshops, and interactions that will be helpful for global exposure.

13. Your vision for the University.

Given the central University's status, this University has a lot of scope from many perspectives. One of the aspects could be organising workshops, guest lectures, and faculty development programs. I envision this University as one of those universities to which the media fraternity can look up to for resources, learning, and collaborations.

14. Your contribution to the University.

Being an alumnus, I can extend all my support or coordination required.

15. Any other suggestions/comments:

The university websites should be improved in terms of designs and posting notifications. The navigation on the website is difficult. The library should provide free access to journals in digital mode.

### IV. **Please comment on the following (Point No. 10 to 15)**

#### 10. **Relevance of curriculum in your Job:**

Some courses apply to my current job. As I am working as a content writer, I found three courses very relevant for any writing jobs: News writing, Web journalism and corporate communication.

#### 11. **Need any change in curriculum and syllabi:**

As per my concerns or my experience in the industry, some courses need to be replaced, including political journalism, science journalism, quantitative research for mass media. Nowadays, companies are seeking different skills no matter which industry you are working in. Our curriculum needs to include at least one data analysis course, one writing course for each semester, social media management, etc. Our Web journalism & designing course should be expanded for deep learning.

Students get confused about choosing interdisciplinary courses. These courses should be design department wise, so students can get the best skills they need to have.

#### 12. **Improvements in teaching and learning Process:**

Every teacher in our department is the best in his/her position. Universities should provide them with at least some basic facilities/equipment, so that they can help students with lots of skills with knowledge.

#### 13. **Your vision for the University.**

The university has been running for the last 13 years and should have its own infrastructure. We want to see it in the list of top central universities of the country

#### 14. **Your contribution to the University.**

Contribute for your overall  
Yes

by interest and passion to the university.
