1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

The university has been building on the feedback received from various stakeholders including students, teachers, and employers. The modus operandi for getting benefitted from the feedback thus received is firstly to collect it and then tabulated it so that we can assess what each stakeholder is observing and expecting in coming times. Students being the most important stakeholders, therefore, each department has separate mechanism to gather feedback from students and their instructors (mentors). The feedback thus received has been analysed to take corrective measures to improve teaching-learning outcomes. The questions on the feedback pro-forma covering the concern about the subject/ domain knowledge of the teachers, quality of lecture, punctuality, evaluation of answer books, outside classroom interaction, etc. Special emphasis has been given on recent pedagogical approaches/practices to engage students in a participatory learning environment. Likewise, teachers/ course instructors are also given ample opportunity to flag their concerns and make suggestions regarding enhancing the quality of teaching and learning to their respective heads and deans in department/school level meetings. The university has focused mainly on students's benefit and without compromising any quality University is continuously improving its teaching-learning methods and for that students' feedback plays a major role. Most of the departments have their respective alumni data base and they are continuously interacting with them. In such meeting they are giving constructive feedback regarding how to come up to the level of the expectations of the industry/ market. A regular interaction is set up with the ex-students so that there is an incessant feedback coming from them and improvement can be ensured. There are several activities such as disbursement of freeships in which the parents of the students of various departments and centres are the members. It is done in each semester on regular basis. In this process, University is also collecting their feedbacks. Likewise, Anti-ragging Committee of the CUHP also comprises parent-members who met annually. Thus, the students' along with alumni's feedback system surely plays an important role in improving the quality of classroom interaction and also of teaching-learning outcomes.

The CUHP has a robust mentoring system in place at UG, PG and Ph.D levels. At UG and PG levels, each Department/centre notifies in advance the number of students to be mentored throughout the duration of their programmes of study. Once the teacher knows about the students that s/he has to mentor, a continuous monitoring of the intellectual as well as psycho-social growth of the students commences. There are special mentoring sessions conducted by the teachers who tend to develop a meaningful rapport with the mentees and make sure that no concerns/problems get unaddressed. The mentor-teachers have the alacrity and willingness to walk several extra miles for the wholistic and multi-dimensional growth of their students. Since the mentorteachers are 24x7 available for their students, a healthy teacher-taught relationship develops which makes CUHP stand apart from the rest. It will not be an overstatement to say that mentee is the locus/ epicentre of the entire teaching-learning process in the university. The classes were held in an off-line mode, mentors remained committed to invite students to their respective offices to counsel them, train them, motivate them and push them to achieve what they can do best as per their potential. This has been the practice at all levels of teaching and research viz. UG, PG and Ph.D. During the pandemic time, like most of the Higher Education Institutions (HEIs), the CUHP too was quick to change gear and adapted the online system for mentorship/ counselling of the students. The biggest challenge remained keeping students and scholars engaged within their respective learning arenas, and thereby not letting them get stressed or dejected. Thus, the CUHP ensures that each student who gets admitted to a program of study is mentored/ counselled continuously at every stage of his/her growth in the university. Moreover, they are simultaneously made aware of various disciplinary, anti-ragging, SPARSH-related issues as well as grievance redressal mechanisms that are in place in case the need be.

The purpose is to emerge as the HEI of repute across India and trying to be on a par with best universities in the world in terms of programme offerings, curricular framework, pedagogy, research, publications and integration with the world of work. To make it a reality, the university tirelessly strives in the direction of providing each individual learner who is uniquely endowed opportunities to choose her/his own pathways and pace of learning so as to enable her/him to excel in their pursuit of higher education. The CUHP offers multi-disciplinary Programme of Study at Undergraduate, Postgraduate and Research Degree Levels designed keeping in view Comprehensive Choice Based Credit System. It has a fully evolved semester system based on Comprehensive Continuous Internal Assessment so as to incorporate a highly research-based pedagogy. It has been trying to develop innovative Curricular Framework aimed at knowledge, skill and aptitude based application-oriented higher education and research. The university still has to have its own infrastructure but its Vision Document has been prepared in consultation with eminent experts in the field of education. The Vision Document and Strategic Plan of the University as approved by the statutory authorities of the University are available at the website of the University

(www.cuhimachal.ac.in). It has developed the culture of participatory management through delegation of authority at different levels and all efforts are being made to bring in the participation of faculty and administration at various levels. In the various high-level bodies and meetings, faculty and administrative staff in various cadres are associated so that a sense of ownership and involvement is promoted. The university has a standard organisational structure. The major administrative and academic decisions are taken by the Executive Council and Academic Council under the Chairmanship of the Vice Chancellor. The powers are, however, delegated to different Deans and Heads of the Departments at the School and Departmental level. The deans and heads deal with the academic matters and work in unison. The interdepartmental decisions are taken in the meeting of deans and heads. The registrar is the administrative head of the university. The Finance Officer is responsible for managing the university finances while the Controller of Examinations takes care of the issues related to examination.

The Central University of Himachal Pradesh came into existence with the promulgation of Central Universities Act 2009. In 2010, the first temporary academic block was established in Shahpur, Kangra with contractual teachers and few non-teaching staff. The first batch of admission was started in 2011 by enrolling PG and Research Degree students. Within the short span , the University has started 04 undergraduate, 22 post graduates programme that have been running successfully and are contributing to the national development. The University now has three campuses and a head quarter office with total number of 74 teaching and 21 non-teaching permanent staff. The faculty from across the country has produced good no. of research articles and popular papers. The faculty has earned and brought plenty of funds under sponsored projects and consultancy worth rupees ~ 20 lakh. The University for its outreach and shared learning and knowledge construction has signed Memorandum of Understanding and worked in collaboration with research institutions of national and international repute. The online-offline training of the students helped them to acquire good job and placement drive conducted by the University too is beneficial to the students for their job search and placement in reputed organization. The flagship programme like Unnat Bharat Abhiyan, National Service Scheme, National Cadet Corps, and chairs of studies are working to establish a dialogue and development among different stakeholders. The University has fully functioning 22 teaching and research department/centre and 01 Deen Dayal Upadhyay Kaushal Kendra (DDUKK) working within four campuses under 11 schools. The University being unique in character emphasizes upon close and dynamic engagements with its students. The University promotes the pan national culture and thinking which is reflected by the number of students and faculty from many different states of the country. The University has many student and faculty exchange programme from abroad and within the country. Besides rigorous lectures and tutorial engagements, the University promotes field works, internships, industrial visits, and co-curricular activities for the overall development of the students. The University in next five years aspires to move in to an exhaustive and sound infrastructure of its own. The

University expects a massive expansion, recruitment, which will leave a impressions of its footprints in the national system of higher education.

8. Future Plans of Actions for Next Academic Year

The University has beautiful campuses at various places at present, which will be developed into a world class institution by strengthening infrastructural facilities. The Central University of Himachal Pradesh (CUHP) will ensure the quality of the education, both theoretical knowledge and practical experience. In the future, CUHP shall endeavour to attract renowned experts of national and international sphere under exchange programme for faculty and students by entering a Memorandum of Understanding with top leading universities and Institutions of the country and world. The need based programmes of study will also be incorporated in the University academic curriculum to cater the needs of local peoples and developing skills among the youth one and women will encourage vocational courses to increase self-employability. In the long term, the CUHP shall strive towards employing new staff, mostly research staff on the basis of successful applications for projects. The composition of administrative and technical personnel currently meets the workload however there is a need to employ more staff to cater the needs of new upcoming departments. In the field of research, it is essential to increase research activities especially focussed on the demand of the local environment, people and employability. Starting the operation of research groups, employment of young researchers and inclusion of postgraduate students will make the CUHP to become a high-quality and recognized research institution. The University will make it mandatory to all teaching staff to submit individual research projects for external funding to various organisations. The CUHP management strives to strengthen their cooperation with the student's alumni, parents and students and to obtain feedback on satisfaction of students studying at CUHP. The university will seek to promote the activities of the 'Student Council' and will inform the students about the importance of their participation in issues related to studies and extracurricular activities. Due to the reduction of concessional resources brought about by the government regulation governing the financing of higher education institutions, the CUHP will need to place greater emphasis on external sources for financing of activities in the future for its development. It will to create conditions to establish cooperation with relevant domestic and foreign institutions. CUHP will strengthen the activities for international collaborations in research, teaching and extension activities.
