

An educational tour to Goa

With the approval of the Honorable Vice Chancellor and the HOD/DEAN of HPKV Business School, SCoMS organized an educational tour to Goa for MBA students from January 18 to January 23, 2023. The purpose of the journey was to give MBA students the chance to gain new insights through exposure to organizational environments while also giving them the chance to investigate what they had learned in the classroom. Students had the chance to connect with employees of firms and learn about the practical application of what they had learned in the classroom throughout the tour. During interactions, students were really excited, and their curiosity energized the room. Members of the organizations were open to students' inquiries and delighted to explain how their systems functioned. 32 MBA students, 3 RD scholars, Professor Sanjeev Gupta, and his wife participated in the excursion.
